

Dear Max Mustermann,

this month we offer you an insight into our unique weekend with our colleagues Léontine Samandoulougou and Denis Yameogo, who visited us in Berlin and reported many interesting stories from Ouagadougou. Speaking of stories, our monthly stories are very special this month. Aicha, an impressive woman, has shared her story with us. It's sadly a very sad and heartbreaking testimonial that needs to be heard in order to understand the current situation in Burkina Faso.

Your AMPO Team

Our new online shop is open!

The time has come – our online shop is now open with a wide selection of items. After a long search we have been able to find our new partner, Includo to market high-range products like patchwork quilts, necklaces and trivets.

Monthly diary

These entries in our monthly diary are a clear indication of how much AMPO can change the life of individuals. Of course there are still major challenges in politics, the economy, the environment and equal opportunities. However, this monthly diary provides an opportunity for us to think about our minor (and major) successes and take pleasure in them.

The boys learn a new type of sport and several people have found a home at AMPO. Yet we have to issue a warning as we read the final text about the Clinic which deals with Aich and her testimonial on terrorist activity in her town.

Review of recent events

The evening before our main meeting we met with many of our members and AMPO supporters at our headquarters. Among those present were the Clinic Director, Léontine Samandoulougou, Director General, Denis Yameogo, and AMPO founder, Katrin Rohde. After much preparation the big day came and we met in the Design Offices in Berlin.

After the words of welcome from Ute Krüger (Managing Director of AMPO International e.V.) and Andrew Sharp (Chairman of the Board of AMPO International e.V.), Katrin Rohde spoke about the present situation in Burkina Faso and about the recent success of the organisation in the capital. The two Directors also spoke about the current problems and challenges, such as the terrorist activities of the Jihadists in the north and the impact of the war in Ukraine on the cost of food.
